MY APPROACH & PHILOSOPHY

A WEDDING DAY TOLD HONESTLY

Your wedding day is the beginning of a story meant to be remembered for a lifetime.

From quiet moments while getting ready to the loud, joyful chaos at the end of the night, my goal is to capture your day exactly as it feels.

To me, photography is more than just taking photos. It is about being present for the moments that matter most. I want to feel like family. Someone you trust to show up fully, support you through the day, and help tell your story in a way that feels real, emotional, and lasting.

I believe the best images come from connection, not perfection. The laughter between friends, the way your hands shake during the vows, the spontaneous dance floor moments that no one planned. Those are the memories that deserve to live on.

Your story deserves to be remembered as it truly is. Full of heart, laughter, and all the little in-between moments that mean the most.

WHAT IT'S LIKE TO WORK TOGETHER

FROM GETTING READY TO THE LAST SONG

I photograph weddings with a connection-driven approach rather than a pose-driven one. I will guide you when needed, but I care most about how you naturally interact. The way you laugh together, lean in close, or steal a quiet moment when no one is watching. Your photos should feel like you, not a performance.

We will spend a lot of time together on your wedding day, so I show up as more than just your photographer. I am there to keep things calm when nerves kick in, hype you up when the energy is high, and jump right into the fun when the night turns wild. Let's get fun, silly, and maybe a little weird. That is often when the real magic happens.

From morning details and emotional first looks to end-of-night dance floor shenanigans, I am there to capture the full story of your day, start to finish.

EDITING, DELIVERY, & WHAT'S INCLUDED

STAYING TRUE TO THE MOMENT

When editing your gallery, I keep everything true to the moment. I enhance light, color, and tone just enough to bring out the feeling of the day without losing the authenticity of what was really there. My style is timeless and true to color, so your photos feel just as meaningful years from now as they do today.

WHAT'S INCLUDED

You will receive every frame that tells the story of your day, minus any blinks, blurs, or mid-sentence faces. No confusing upsells and no hidden fees.

Your final gallery is yours to keep. You can download, share, and print your images wherever you would like. You also have the option to order professional prints directly from your gallery, priced at cost to keep them as affordable as possible.

While your coverage has a general time frame, nothing is rushed or overly rigid. We will keep shooting until we have what we need and you feel confident that your story has been fully captured.

THE INVESTMENT

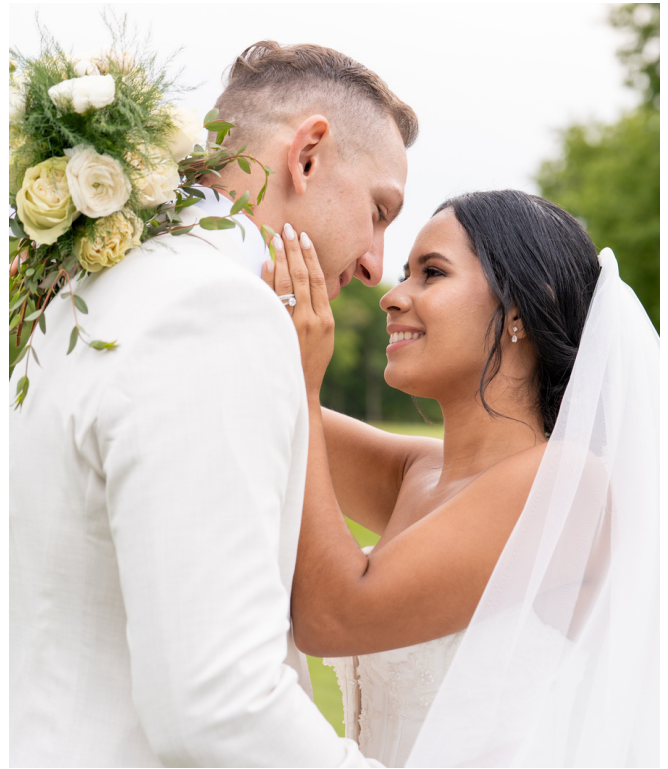

FOR THE MOMENTS YOU'LL RELIVE FOREVER

Your wedding photography is more than a service. It is an experience, a relationship, and a commitment to telling your story with care from beginning to end.

When you look back on your wedding photos years from now, I want you to remember how the day felt. The nerves, the joy, the laughter, and the love that surrounded you. This is about preserving those moments in a way that feels honest and timeless.

The collections on the next page are designed to support a full wedding day story. From getting ready through the last song on the dance floor, each option is thoughtfully built to give you the time, coverage, and flexibility your day deserves.

If you are looking for photography that values connection, presence, and storytelling, supported by thoughtful guidance and a timeline designed around you, you are in the right place.

FULL DAY PACKAGES
